EDUCATION

George Mason University (GPA: 3.75/4.0) <i>Bachelor of Science in Computer Science</i>	Fairfax, Virginia <i>Expected Graduation: May 2026</i>
--	--

- Relevant Coursework: Computing in Python & Java, C, Low-level and Object-Oriented Programming, Data Structures & Algorithms, Formal Methods.

EXPERIENCE

Outlier <i>Artificial Intelligence Code Trainer</i>	San Francisco, California <i>November 2024 – Present</i>
---	--

- Evaluated and refined 200+ AI-generated coding solutions, increasing model accuracy.
- Provided detailed feedback across Java, Python, and JavaScript to enhance AI model responses.
- Collaborated with AI prompt engineers to improve machine learning algorithms used in generative AI.

Kelley Innovative Technology LLC <i>Software Developer</i>	Parsons, West Virginia <i>June 2024 – Present</i>
--	---

- Designed and implemented optimized algorithms in C++ and Java, enhancing application efficiency and functionality for key projects.
- Developed real-time software integrations with hardware components, enhancing sensor data accuracy.
- Debugged and optimized C++ applications for embedded systems.

SOFT SKILLS

Sweetwater Tavern <i>Server</i>	Centreville, Virginia <i>September 2024 - Present</i>
---	---

- Provided exceptional service in a high-paced, customer-facing environment.
- Developed strong teamwork and communication skills by coordinating with 40+ staff members per shift.

SKILLS

- **Programming:** Java, Python, JavaScript, HTML, CSS, C++
- **Tools:** Eclipse, Visual Studio Code, Git, GitHub
- **Soft Skills:** Team Collaboration, Problem-Solving, Time Management
